Cirebon, West Java

## EXECUTIVE SUMMARY

---

A fast learner, adaptable, and highly motivated third-year student from STIKOM Poltek Cirebon majoring in Informatics Engineering. I focus on web development, especially in working with HTML, CSS, JavaScript, PHP, Laravel, React.js, and Tailwind CSS. I am also interested in software engineering and UI/UX design. I am a committed and detail-oriented person who enjoys creating clean and functional websites. Currently, I'm eager to improve my skills and gain more experience by working on real-world web development projects.

## EDUCATION

---

### STIKOM POLTEK CIREBON

Aug 2022 - Aug 2026 (Expected)

#### *Bachelor of Informatics Engineering*

- CGPA: 3.82/4.00
- Computer Lab Assistant for Web Programming & Design.
- Intern as Fullstack Web Developer at PT Winnicode Garuda Indonesia.
- Mentor of Web Programming – Student Computer Association.
- Mentor of Robotics – Microcontroller Division.
- Relevant Coursework: Web Programming, Object-Oriented Programming, Database Systems, Human-Computer Interaction, Microcontroller & Embedded Systems, Computer Networks, etc.

## PROJECT

---

### News Portal Website

Apr 2025 - Jun 2025

Individual Project

- Built a responsive news portal with categorized articles and search functionality.
- Used Laravel, PHP, JavaScript, and Tailwind CSS for fullstack development.
- Implemented admin panel, authentication, and article management system.

### Personal Portofolio Website

Jun 2025 - Jul 2025

Individual Project

- Designed and built a personal website to showcase projects and skills.
- Created interactive sections using HTML, CSS, and JavaScript.
- Focused on clean layout, responsiveness, and smooth user interaction.
- Live Site : <https://ahmadanim.netlify.app>

### Grocery Store Management System

Nov 2024 - Dec 2024

Individual Project

- Created a desktop-based management system for a small grocery store.
- Developed using Visual Basic, including features like inventory, transaction, and reporting.
- Focused on simple interface and offline data handling.

### E-commerce Website

May 2024 - Jun 2024

Team Project

- Developed an e-commerce platform UI for a local building materials store.
- Used React.js and Bootstrap to create dynamic and responsive components.
- Contributed to layout design, routing, and product display logic.

## ORGANIZATIONAL & WORK EXPERIENCES

---

**Computer Lab Assistant**
